Where the World Comes Together

The Sheraton Gateway in Toronto International Airport is embarking on an exciting journey of transformation to bring fresh perspectives and shared experiences. Travelers need more than just a place to rest. They need a space to share. Open, collaborative, flowing. So we're starting a movement.

SHERATON

Gateway Hotel in
Toronto International Airport

The Public Space

The heart of the hotel, the essence of community and gathering for the guest experience, entices guests to come down from their rooms and locals to drop in a place to meet, work and relax; the hotel where you'll want to hit "L" in the elevator.

It's something you can sense from the moment you arrive. A feeling. An energy. An understanding. At Sheraton hotels, you always feel part of something more.

Coffee Bar/Bar

Introducing our new Coffee Bar/Bar concept, a redefined experience, an invitation, a point of connection, an enticing space at the forefront of your arrival experience. Try one of our elevated signature coffees and browse our selection of decadant pastries in the morning. For a quick meal option during the day, discover our selection of fresh grab n' go meals. As the evening sets in, the Coffee Bar/Bar transitions into the perfect place to meet over a refreshing cocktail.
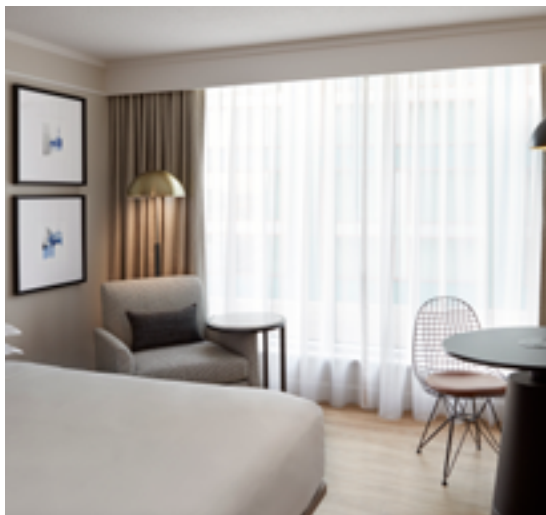

Guestrooms

We have elevated our guestrooms and suites to bring an immediate feeling of comfort and belonging from the moment you step in.

The new design makes for the perfect place to unwind after a long day of meetings, during a layover or to comfortably get a few more hours of work done in the comfort of your own space.

Sheraton Club Lounge

A unique and exclusive offering designed for over 110 million Marriott Bonvoy members globally, who play an amplified role in the community.

Our goal is to maximize our guests' ability to work, meet & relax in a space they will be proud to make their own. We aim to provide an effortless transition between work and play.
